Achievements!:

Steam Achievements or nahh?:

Hey what's up, AP from Pixelent Games here!

Just wanted to share this with you guys, somebody just asked me if I was going to add Steam Achievements to Hero Staff, I had thought about it long ago but just focused on finishing the game instead.

I'll look into it, but my major setback is NOT KNOWING HOW TO DO IT! (I'm a noob developer, I admit it!), but I'll look into it, I promise, and if it can't happen, well, that's life!

But I already made a list of every possible achievement of the game, I'll share the first one with you:

Hero Staff! (Taking the Hero Staff at the beginning of the game)

And boom! That could be an achievement! Some stuff like that, simple but basic in any Steam game, I'll let you know if that ever happens!

Pixelent Games. **In-Game ACHIEVEMENTS!:**

Hello guys, AP from Pixelent Games here.

After fighting a giant bug (inside my game, hope it's dead for good), I finally implemented IN-GAME ACHIEVEMENTS for Hero Staff!

Basically, as you progress through the game and do what you have to do, some achievement text will pop up and you'll be able to see them, which will be especially useful for newcomers!

I just added a few achievements to finally say I "completed" developing this game, nothing fancy.

Well, that's it, let me know if you find a bug or write a review of this short but fun game, see ya later Heroes!
